

Women in Armed Rebellion (WARD) Version History 1.3 (updated 7.31.2019)

This document summarizes updates to the original dataset used in Wood and Thomas (2017). These changes reflect new information uncovered since the publication of the original dataset as well as an expansion of the temporal scope of the dataset.

General summary of changes:

- 1) WARD now includes information for 316 distinct armed groups.
- 2) The temporal scope of the dataset spans the years 1964-2014, including colonial conflicts.
- 3) The dataset is now organized by UCDP actor ID numbers (SideB_ID) rather than the Dyad_ID. However, the Dyad_ID is still included. *Note that the same group may be involved in multiple dyadic conflicts. WARD does not distinguish across these different dyads and assigns the same values of the key measures for each dyad in which a given actor was involved.*

Additions covering time frame of the original dataset (1979-2009) (previously coded as missing)

Rebel Group (Side B)	Country	SideB_ID	Dyad_ID	SideA_ID
PFLP-GC	Israel	1048	428	666
